

Everything you need to get the job done

Prevent failure & secure production

Save time, everything you need in 1 kit

Get the right parts & the OEM quality

Always receive the latest updated part design

Benefits of a Preventive Maintenance Kit

- Replacing consumables elements on regular basis is an important maintenance practice to maximize your system performance and preform quality.
- Husky customizes each package to meet the needs of maintenance of every specific hot runner.
- Hot runner HPP5 upgrade extends your maintenance interval by up to 1,000,000 cycles, eliminating the need for two basic maintenance cycles (in a typical 24 million shot HR life).

PET Hot Runner Preventive Maintenance Kits*

PET hot runner preventive maintenance kits include the parts required for the basic maintenance. Basic maintenance of PET hot runners is recommended **every 3M to 4M** cycles.

Typical components included in PET hot runner PM Kit:

- Valve stems
- Tip insulators
- Nozzle tips
- Piston seals
- Set Screws *for Ultra design only*
- Thermogel

Additional parts recommended for basic maintenance:

- Cylinder caps
- O-rings
- Pistons
- Grafoil seals

PET HR PM Kits with HPP5 upgrade**

Hot runner HPP5 upgrade **extends your maintenance interval by up to 1,000,000 cycles**, eliminating the need for two basic maintenance cycles (in a typical 24 million shot HR life).

Typical components included in PET hot runner PM Kit with HPP5 Upgrade**:

- Valve stems
- Piston seals
- Nozzle tips
- Valve pistons
- Tip insulators
- Piston cylinders
- Set screws
- Thermogel

* Available for all PET Hot Runner (except Multiplayer)

** Available for Ultra design hot runner
